

BY ANKIT KASHLIWAL

1st year, B.Arch

Getting into a good architecture college was always the dream that I cherished every night. To be very honest, I did not think of getting into GUWAHATI COLLEGE OF ARCHITECTURE. I wanted to go to MUMBAI, DELHI or the like to pursue my dreams! But then one of my friends (Abhinabh Rajkhowa) who got admitted in the college before me, told me about his experience in the college! I could feel the excitement in his tongue! This made me visit the college with my father. The moment I entered the college I could see the shadow of my dreams following me! The first thing that struck me was the beautiful curvatures on the wall which took my breath away! Seeing the environment that flourished in the college, I made up my mind that I must come for the classes! So I finally joined the classes on 20th July with excitement on my teeth! Today, after spending a fortnight in the college, I must say I am proud of my decision! The reasons are several!

Firstly, I realized that there is no teacher- student relationship here! But it's an adoring friendly relationship that prevails between teachers and students which encourages us to throw our thoughts without the slightest hiccup! Moreover, the PRINCIPAL is easily approachable for the students, if we have any sort of inconvenience and even we are asked to give suggestion for the betterment of the college. There are no restrictions on our using the computer lab, we are free to use at any hour of the day we feel like.

Finally, I would like to say that a friendly atmosphere prevails in the college where discipline is an integral part and would like to say that "GUWAHATI COLLEGE OF ARCHITECTURE" is a place to learn and develop your own personality.

THANK YOU
