

BY MEENAKSHI SINHA

B. Arch IIInd Yr

Roll No.:02

It has been a year since I have joined *GUWAHATI COLLEGE OF ARCHITECTURE*, and it has been a great experience so far. The faculties are quite interactive and didactic. The site visits help us to get a pragmatic knowledge about aspects of architecture and it has been exciting. Apart from attending the regular curriculum, I attended the NASA convocation and study tour, where I communicated with students participating from different colleges and learned a lot about their technical skills and presentation.

According to me, by joining *GUWAHATI COLLEGE OF ARCHITECTURE*, a student will not only be able to develop his/her personal traits but also will be able to give a bustle start to his/her professional carrier.

THANK YOU
